

THE HORNWORTS AND LIVERWORTS LIST OF ROMANIA

SORIN ȘTEFĂNUȚ

In this paper we present the list of hornworts and liverworts from Romania which includes our recent reports: *Frullania parvistipula*, *Haplomitrium hookeri*, *Lophozia opacifolia*, *Marsupella commutata*, *Pallavicinia lyellii*, and *Pleurocladula albescens* var. *albescens*. The species *Anthoceros agrestis* is reported as new to Romania.

Key words: *hornworts, liverworts, Romania*.

INTRODUCTION

The bryological researches made on Romanian hornworts and liverworts, in 200 years approximately, were followed by huge data storage and now the list has 219 records. The most important list, that has 200 records, was published by Mihai G. (9). New lists were recently published (2, 10).

MATERIAL AND METHODS

The nomenclature and systematic classification is in accordance with Schuster 1992 (15), Paton 1999 (12), Grolle & Long 2000 (5), Crandall-Stotler & Stotler 2000 (1) and Söderström, Urmi & Váňa 2002 (17).

For the threatened species, that are in the Red List of bryophytes in Europe, we use the following abbreviations: **K** = insufficiently known species, **R** = rare species, **V** = vulnerable species and with **E** = endangered species (4). In the paper we use the following symbols: **o** = occurrence reported but the source does not discriminate between the taxa in a complex; **?** = occurrence doubtful; **†** = endemic taxon in Europe (17).

RESULTS AND DISCUSSION

The hornworts and liverworts list of Romania has 219 records (209 species, 4 subspecies and 6 varieties). The list includes the recent reports: *Cephaloziella baumgarteni*, *C. massalongi*, *C. spinigera*, *Frullania parvistipula*, *Haplomitrium hookeri*, *Lophozia opacifolia*, *Marsupella commutata*, *Pallavicinia lyellii* and *Pleurocladula albescens* var. *albescens* (we note with * our recent reports).

In the list is presented the *Anthoceros agrestis* Paton species, new to Romania. The *Anthoceros agrestis* was identified from Tâmpești, Neamț County, leg. & det. C. Papp (as *A. punctatus* L.), registered in Flora Romaniae Exsiccata a Herbario Universitatis Napocensis Edita, no. 3043 and revision was made by Ștefanuț S. [BUCA B1000, B1001]. The samples of *Anthoceros agrestis* were identified after the colour of spores (black) and the length of mature antheridia (85 µm).

A number of twelve species is rejected from the hornworts and liverworts list of Romania: *Calypogeia arguta* Nees et Mont., *Fossombronia foveolata* Lindb., *Gymnomitrion crenulatum* Gottsche ex Carrington, *Jungermannia jenseniana* Grolle, *Lophozia elongata* Steph., *Lophozia guttulata* (Lindb. et Arnell) Grolle, *Marchantia paleacea* Bertol., *Porella platyphylloidea* (Schwein.) Lindb., *Riccia pseudopapillosa* Levier ex Steph., *Scapania compacta* (A. Roth) Dumort., *Scapania crassiretis* Bryhn and *Scapania praetervisa* Meyl.

Phylum Anthocerotophyta (hornworts)

Class Anthocerotopsida Howe

Order Anthocerotales Limpr.

Family Anthocerotaceae Dumort.

Genera *Anthoceros* L.

1. ^{1*}*Anthoceros agrestis* Paton (12, 15, 17: o)
2. ²*Anthoceros punctatus* L. (2, 9, 10, 17: ?)

Genera *Phaeoceros* Prosk.

3. ³*Phaeoceros carolinianus* (Michx.) Prosk. (2, 9, 10, 17)
4. ⁴*Phaeoceros laevis* (L.) Prosk. (2, 9, 10, 17)

Phylum Marchantiophyta (liverworts)

Class Marchantiopsida Stotler et Stotl.-Crand.

Subclass Marchantiidae Engl.

Order Marchiales Limpr.

Suborder Marchantiineae H. Buch ex Schljakov

Family Aytoniaceae Cavers

¹ *Anthoceros punctatus* L. (that includes *Anthoceros agrestis* and *A. punctatus*) was reported from Broșteni, Suceava County, by Proskauer (11) and Schuster (15) sub *Aspiromitus punctatus* (L.) Schljakov.

² *Anthoceros punctatus* L. (a new check required; the past reports can be *Anthoceros agrestis* Paton).

³ *Phaeoceros carolinianus* (Michx.) Prosk. was found recently in the Piatra Craiului National Park, near Zărnești, Brașov County [BUCA B2801, B2802 and B2803]; the last report in Romania was in 1931 (25).

⁴ *Phaeoceros laevis* (L.) Prosk. (a new check required, the samples can be *Phaeoceros carolinianus* (Michx.) Prosk.).

Genera *Asterella* P. Beauv.

5. ⁵*Asterella gracilis* (F. Weber) Underw. (2, 9, 10, 17)
6. *Asterella lindenbergiana* (Corda ex Nees) Arnell (2, 9, 10, 17)
7. *Asterella saccata* (Wahlenb.) A. Evans (2, 9, 10, 17) V

Genera *Mannia* Opiz

8. *Mannia androgyna* (L.) A. Evans (2, 9, 10, 17)
9. *Mannia fragrans* (Balbis) Frye et L. Clark (2, 9, 10, 17)
10. *Mannia pilosa* (Hornem.) Frye et L. Clark (2, 9, 10, 17)
11. *Mannia triandra* (Scop.) Grolle (2, 9, 10, 17) R

Genera *Reboulia* Raddi

12. *Reboulia hemisphaerica* (L.) Raddi (2, 9, 10, 17)

Family Conocephalaceae Müll. Frib. ex Grolle

Genera *Conocephalum* Hill

13. *Conocephalum conicum* (L.) Dumort. (2, 9, 10, 17)

Family Lunulariaceae H. Klinggr.

Genera *Lunularia* Adans.

146. *Tritomaria exsecta* (Schmidel) Loeske (2, 9, 10, 17)

147. *Tritomaria exsectiformis* (Breidl.) Loeske (2, 9, 10, 17)

148. *Tritomaria polita* (Nees) Jörg. (2, 9, 10, 17)

149. *Tritomaria quinquedentata* (Huds.) H. Buch. (2, 9, 10, 17)

150. *Tritomaria scitula* (Taylor) Jörg. (2, 9, 10, 17)

Family Jungermanniaceae Rchb.

Genera Jungermannia L.

151. *Jungermannia atrovirens* Dumort. (2, 9, 10, 17)

152. *Jungermannia borealis* Damsh. et Váňa (2, 9, 10, 17)

153. *Jungermannia caespiticia* Lindenb. (2, 9, 10, 17)

154. *Jungermannia confertissima* Nees (2, 9, 10, 17)

155. *Jungermannia exsertifolia* Steph. subsp. *cordifolia* (Dumort.) Váňa (2, 9, 10, 17)

156. *Jungermannia gracillima* Sm. (2, 9, 10, 17)

157. *Jungermannia hyalina* Lyell (2, 9, 10, 17)

158. *Jungermannia leiantha* Grolle (2, 9, 10, 17)

159. *Jungermannia obovata* Nees (2, 9, 10, 17)

160. *Jungermannia polaris* Lindb. (2, 9, 10, 17)

161. *Jungermannia pumila* With. (2, 9, 10, 17)

162. *Jungermannia sphaerocarpa* Hook. (2, 9, 10, 17)

163. *Jungermannia subelliptica* (Lindb. ex Kaal.) Levier (2, 9, 10, 17)

164. ¹⁵*Jungermannia subulata* A. Evans (2, 6, 10, 17) **R**

Genera Mylia Gray

165. *Mylia anomala* (Hook.) Gray (2, 9, 10, 17)

¹⁴*Lophozia opacifolia* Culm. ex Meyl. was recent reported from Romania, Bucegi Mountains, Hornul Mare, Brașov County, leg. & det. Ștefanuț S., conf. T.L. Blockeel [BUCA B945] (21);

¹⁵*Jungermannia subulata* A. Evans reported from Romania, Harghita County, Vlăhița (Olohfalu) [W] and Lueta Valley [W] (6).

166. *Mylia taylorii* (Hook.) Gray (2, 9, 10, 17)

Genera *Nardia* Gray

167. ¹⁶*Nardia breidleri* (Limpr.) Lindb. (2, 3, 10)

168. *Nardia geoscyphus* (De Not.) Lindb. (2, 9, 10, 17)

169. *Nardia insecta* Lindb. (2, 10, 17)

170. *Nardia scalaris* Gray (2, 9, 10, 17)

Family Gymnomitriaceae H. Klinggr.

Genera *Gymnomitrium* Corda

171. *Gymnomitrium concinnum* (Lightf.) Lindb. (2, 9, 10, 17)

172. *Gymnomitrium coralloides* Nees (2, 9, 10, 17)

Genera *Marsupella* Dumort.

173. ¹⁷**Marsupella commutata* (Limpr.) Bernet (23)

174. *Marsupella boeckii* (Austin) Kaal. (2, 9, 10, 17)

175. *Marsupella brevissima* (Dumort.) Grolle (2, 9, 10, 17)

176. *Marsupella emarginata* (Ehrh.) Dumort. subsp. *emarginata* (2, 9, 10, 17)

177. *Marsupella emarginata* (Ehrh.) Dumort. subsp. *aquatica* (Lindenb.) Meyl. (2, 10, 17)

178. *Marsupella funckii* (F. Weber et D. Mohr) Dumort. (2, 9, 10, 17)

179. *Marsupella ramosa* Müll. Frib. (9, 10, 17: †)

180. *Marsupella sphacelata* (Gieseke et Lindenb.) Dumort. (2, 9, 10, 17)

181. *Marsupella sprucei* (Limpr.) Bernet. (9, 10, 17)

Family Scapaniaceae Mig.

Genera *Diplophyllum* (Dumort.) Dumort.

182. *Diplophyllum albicans* (L.) Dumort. (2, 9, 10, 17)

183. *Diplophyllum obtusifolium* (Hook.) Dumort. (2, 9, 10, 17)

184. *Diplophyllum taxifolium* (Wahlenb.) Dumort. (2, 9, 10, 17)

Genera *Scapania* (Dumort.) Dumort.

185. *Scapania aequiloba* (Schwägr.) Dumort. (2, 9, 10, 17)

186. *Scapania apiculata* Spruce (9, 10, 17)

187. *Scapania aspera* Bernet et M. Bernet (9, 10, 17)

188. ¹⁸*Scapania brevicaulis* Taylor (6, 18) K

189. *Scapania calcicola* (Arnell et J. Perss.) Ingham (9, 10, 17)

190. *Scapania curta* (Mart.) Dumort. (2, 9, 10, 17)

191. *Scapania cuspiduligera* (Nees) Müll. Frib. (2, 9, 17)

192. ¹⁹*Scapania glaucocephala* (Taylor) Austin (2, 3, 9, 10)

193. *Scapania gracilis* Lindb. (9, 10, 17)

194. *Scapania helvetica* Gottsche (9, 10, 17)

¹⁶*Nardia breidleri* (Limpr.) Lindb. was reported from Romania (3), but later reject in earlier source (17).

¹⁷ *Marsupella commutata* (Limpr.) Bernet was reported from Urlea Lake, Făgăraș Mountains (23).

¹⁸*Scapania brevicaulis* Taylor (published by Ștefureac T. sub *Scapania degenii* Schiffn. ex Müll. Frib.) (24).

¹⁹The sample of *Scapania glaucocephala* (Taylor) Austin was checked by Düll R. (3).

195. *Scapania irrigua* (Nees) Nees (2, 9, 10, 17)
 196. *Scapania mucronata* H. Buch (9, 10, 17)
 197. *Scapania nemorea* (L.) Grolle (2, 9, 10, 17)
 198. *Scapania paludicola* Loeske et Müll. Frib. (9, 10, 17)
 199. *Scapania paludosa* (Müll. Frib.) Müll. Frib. (9, 10, 17)
 200. *Scapania scandica* (Arnell et H. Buch) Macvicar (9, 10, 17)
 201. *Scapania subalpina* (Nees ex Lindenb.) Dumort. (2, 9, 10, 17)
 202. *Scapania uliginosa* (Sw. ex Lindenb.) Dumort. (2, 9, 17)
 203. *Scapania umbrosa* (Schrad.) Dumort. (2, 9, 10, 17)
 204. *Scapania undulata* (L.) Dumort. (2, 9, 10, 17)
 205. *Scapania verrucosa* Heeg (9, 10, 17) R

Order Porellales (R.M. Schust.) Schljakov emend. Stotler et Stotl.-Crand.

Suborder Porellineae R.M. Schust.

Family Porellaceae Cavers

Genera *Porella* L.

206. *Porella arboris-vitae* (With.) Grolle (2, 9, 10, 17)
 207. *Porella baueri* (Schiffn.) C.E.O. Jensen (9, 10, 17)
 208. *Porella cordaeana* (Huebener) Moore (2, 9, 10, 17)
 209. *Porella platyphylla* (L.) Pfeiff. (2, 9, 10, 17)

Suborder Jubulineae (Spruce) Müll. Frib.

²⁰**Family** Frullaniaceae Lorch (5)

Genera *Frullania* Raddi

210. *Frullania dilatata* (L.) Dumort. (2, 9, 10, 17)
 211. *Frullania fragilifolia* (Taylor) Gottsche et al. (2, 9, 10, 17: †)
 212. *Frullania jackii* Gottsche (2, 9, 10, 17)
²¹*21. *Frullania parvistipula* Steph. E (22)
 214. *Frullania tamarisci* (L.) Dumort. (9, 10, 17)

Family Lejeuneaceae Casares-Gil

Genera *Cololejeunea* (Spruce) Schiffn.

215. *Cololejeunea calcarea* (Lib.) Schiffn. (2, 9, 10, 17)
 216. *Cololejeunea rossettiana* (C. Massal.) Schiffn. (2, 9, 10, 17)

Genera *Lejeunea* Lib.

217. *Lejeunea cavifolia* (Ehrh.) Lindb. (2, 9, 10, 17)

Order Radulales (R.M. Schust.) Stotler et Stotl.-Crand.

Family Radulaceae (Dumort.) Müll. Frib.

Genera *Radula* Dumort.

218. *Radula complanata* (L.) Dumort. (2, 9, 10, 17)

219. *Radula lindenbergiana* Gottsche et C. Hartm. (9, 10, 17)

²⁰In Crandall-Stotler & Stotler 2000 (1) the *Frullania* species are under Jubulaceae family.

²¹*Frullania parvistipula* Steph. was recent reported from Romania, the Great Gorges of Dâmbovița river, near Rucăr, Argeș county, leg. & det. Ștefanu S., conf. R. Schumacker [BUCA B943 and B944] (22);

TAXONS REJECTED FROM THE HORNWORTS AND LIVERWORTS LIST OF ROMANIA

1. *Calypogeia arguta* Nees et Mont. was reported from Romania but unconfirmed (2).
2. *Gymnomitrium crenulatum* Gottsche ex Carrington was reported from Romania but unconfirmed (2).
3. *Jungermannia jenseniana* Grolle was reported from Romania but later reject (2, 9, 10).
4. *Fossombronia foveolata* Lindb. was misincluded in Dihoru's list (2);
5. *Lophozia elongata* Steph. (*Lophozia excisa* (Dicks.) Dumort. var. *cylindracea* (Dumort.) Müll. Frib. is not synonym to *Lophozia elongata* Steph.) (2, 10).
6. *Lophozia guttulata* (Lindb. et Arnell) Grolle (is synonym to *Lophozia longiflora* (Nees) Schihhn.) (2, 9, 10, 17).
7. *Marchantia paleacea* Bertol., was reported from Romania but later reject in earlier source (13).
8. *Porella platyphylloidea* (Schwein.) Lindb. (is synonym to *Porella platyphylla* (L.) Pfeiff.) (2, 9, 10, 17).
9. *Riccia pseudopapillosa* Levier ex Steph. (is synonym to *Riccia papillosa* Moris) (10).
10. *Scapania compacta* (A. Roth) Dumort. was reported from Romania but later reject in earlier source (2, 13).
11. *Scapania crassiretis* Bryhn was reported from Romania but later reject (13).
12. *Scapania praetervisa* Meyl. was reported from Romania (7), but probably it was misidentified.
